## **ALONG THE WAY**

I'm in a daydream, following my feet  
Wherever they may lead me and I might meet  
Look at the drivers stuck in their cars  
Busy going nowhere for hours and hours

*But I'm taking time along the way, oh yeah  
I'm making time for here today*

No destination, no aim in mind  
But what I will discover in all I find  
The place that you come from or where you end up  
Wherever they may be is mostly luck

*So...Chorus*

So on with the journey, wherever we go  
Like every passing moment, that's all we know  
And what we discover from near and far  
It somehow gives a meaning to who we are

*And...Chorus*

*Yes...Chorus*

## **LOOK AT ME**

*Look at me, can't you see  
How my heart skips a beat  
Whenever you're around  
When you show, don't you know  
How each time that we meet  
My feet are off the ground*

How can I stop myself feeling  
Feeling the way that I do?  
So happy when we're together  
So glad that I'm here with you

*Chorus*

When you're not there I keep thinking  
Thinking of all I could say  
But what if I said the wrong thing  
And threw our friendship away

*Chorus*

I always used to be dreaming  
Dreaming of someone like you  
Why did it have to be this way  
When my dream finally came true?

And so my tears keep on falling  
Falling for what I can't tame  
I've never felt it so deeply  
How could I ever again?

*Chorus*

## ***YOU AND I***

You and I entwined as one  
We grow together beneath the sun  
I see much more than I did before  
And through your eyes each new surprise  
Reminds me of this wondrous love  
So much in store still to explore  
With the one I'll adore forevermore

# ***MARK MY WORDS***

(Instrumental)

## **SOMETHING IN YOUR SONG**

Late that night in the candle light  
We first talked for a while  
The went our way till the following day  
With goodnight and a smile  
Our breakfast we shared in the bright morning sun  
As you talked of that teacher who'd tried to spoil your fun

You walked with me to the chestnut tree  
That on the village green grew  
Beneath it's shade your songs you played  
With a beauty so rare and true  
After the show when your time came to go  
Got your things from my room, said we'd meet again soon

*But there was something in your song that moved me  
Something in your voice that soothed me  
Something in the way you play it for me*

With your bag and guitar you got into my car  
Made our way to where we would play  
Then back on the road to my place we drove  
For I'd said that there you could stay  
You wondered if what we need to be shown  
Is just the approval that we'd never known

*Chorus*

Rushing off for your train, never heard from again  
Since you left on that day  
Just one more station to the next destination  
Where you'd agreed to play  
A fluttering leaf catches my eye  
I look again but it's gone from the sky

*Chorus*

## **MOVE ON AND LEAVE IT BEHIND**

There may be saints but there are no sinners  
Just people making choices & trying to be winners  
In life's game we're all beginners  
Just trying to make sense of what's within us

*If what we did seemed the best thing at the time  
Even if doesn't look like that further down the line  
Move on & leave it behind*

There is no evil but there is some good  
When we lend a hand like we know we should  
And though we may have done all we could  
It won't always work out how we hoped it would

*Chorus*

You may be wrong or you may be right  
But life is so rarely that black & white  
What you see at your command  
Will always depend on from where you stand

*Chorus*

## ***I WAS LOST***

I was lost, I was looking for where to go  
When she stopped and she started to say hello  
And I said I was trying to find my way  
To a place that I'd heard about yesterday

Then she smiled and she told me what I should do  
She said "Look, can't you see there's a way for you"  
And I tried to see where but I couldn't tell  
So she said, "Come with me then, you might as well"

Why did she turn to me  
How had this come to be  
And dare I see where it was leading to?

Well I thought and I wondered what I should do  
But I knew that depends on your point of view  
There's a choice but we never quite know the score  
Till we've walked to the other side of that door

So I went and she welcomed me to her place  
And I knew, I could see by the look on her face  
And we fell, yes we fell into where we'd land  
Till the time came to leave for where I had planned

Why, when I think of her  
And all that we seemed to share  
Did I have to say goodbye so soon?

I was lost, I was looking for where to go  
When she stopped and she started to say hello  
And I thought that I'd finally found my way  
Now I know I must wait for another day

## **TWITTERING AWAY**

From Hear'Say to the X Factor  
They've made music into a sport  
In politics they are playing it now  
Which performer gets the best vote?  
Everybody can be number one  
Is what we seem to have bought  
Anyone who thinks that's true  
Didn't take in the Maths they were taught

*What are we doing today?  
Twittering away with nothing to say*

What you had for your breakfast  
Why on earth should I want to know?  
And have heard of the latest  
You can buy lots of friends in one go  
Everybody can be famous now  
And have their 5 minutes of fame  
But why do these wannabe celebrities  
Always sound so dumb and inane?

*Chorus*

In the past they predicted by this time  
We'd be working just three days a week  
Computers would do the rest for us  
More time for our pleasures to seek  
All this information at our fingertips  
Has it made us wiser d'you think?  
People getting thicker in both ways today  
And they say there must be a link

*Chorus*

## **OUR FIRST DATE**

Do you remember our first date, we'd agreed to meet  
By the Olde Dolphin in Derby on that one-way street  
I'd got so lost when I saw you that day  
I'd driven up the wrong way

We had arranged that once we'd met we'd go on from there  
Over to Dovedale for a walk in the country air  
But as the rain came down it made us think  
To stop on route for a drink

As we were driving through Ashbourne a cafe caught our eye  
Then next door bought an umbrella to help keep us dry  
So we decided to go for a walk  
And headed off for the park

You almost slipped as we walked on over that parkland  
And put your arm close around me till we reached the bandstand  
And leaning on those railings in the mist  
We came to share our first kiss

## **LOVE MAKES LIFE WORTHWHILE**

There was love, there was light  
But I wasn't aware that it was there  
Till I found you  
There was joy, peace of mind  
Though I didn't feel that it was real  
But now I do

*Now I'm here with you  
I know how much it's true  
And deep inside I smile  
Love makes life worthwhile*

I've had my fun and felt the thrill  
But as soon as it came it was gone again  
Till my next high  
And in between I felt the low  
An empty soul never feeling whole  
Not knowing why

*Chorus*

When times are hard and life is tough  
And whatever you do you haven't a clue what's for the best  
The light of love will show the way  
For when someone's there and you know they care  
Your life is blessed

*Chorus*

## **NEED LOVIN'**

I need lovin' all of the time  
I need lovin' is that a crime?

No matter what you say  
It's always gonna be that way  
I need lovin' all of the time

You need lovin' when you're feelin' down  
You need lovin' to bring you around

No matter what you say  
It's always gonna be that way  
You need lovin' when you're feelin' down

They need lovin' to help them along  
They need lovin' to make them feel strong

No matter what you say  
It's always gonna be that way  
They need lovin' to help them along

We need lovin' when we're feelin' blue  
We need lovin' so we can pull through  
No matter what you say  
It's always gonna be that way  
We need lovin' when we're feelin' blue

## ***TO BRING ME TO YOU***

Come, come let me kiss you  
You know how I miss you  
When you're not around

Here we are together  
Now and forever  
In our love we've found

Someone we will care for  
And always be there for  
Till we're in the ground

All of the strife and sorrows of life  
Were worth going through just to bring me you  
I'll do what I can now I am your man  
And hope that you see how much you mean to me

So come, come let me hold you  
The way that I told you  
Here in my heart

So much to yet to come now  
We've only begun now  
To make a start
